PREFACE 5

IN MEMORIAM

Petar Kenderov, Andrey Andreev. Academician Blagovest Sendov (1932 – 2020) 9

Hristo Sendov. A glance at the best results of Blagovest Sendov and Hristo Sendov 22

Ivan Tonov. Chavdar Lozanov (1946 – 2020) 26

ANNIVERSARIES

Evgenia Sendova, Albena Vassileva, Emil Kolev. It is not about "brain drain", it is about "brain gain" – 20 years High School Institute of Mathematics and Informatics 31

T. Baicheva, P. Boivalenkov, I. Bouyukliev. Stefan Dodunekov's 75th birthday 48

Geno Nikolov. 75 years from the birth of Borislav Bojanov 58

Nikolay K. Vitanov. Academicians and corresponding members of the Bulgarian Academy of Sciences having jubilee in 2019: Academician Stanimir Troyanski, Corresponding Member Ivan Dimovski and Corresponding Member Emil Horozov 63

Ivan Landjev. The Indian mathematician Ramanujan 75

INVITED TALKS

Silvia Boumova, Vesselin Drensky, Boyan Kostadinov. A Diophantine transport problem from 2016 and its possible solution from 1903 89

Stoyan Mihov. Mathematical methods in automatic speech recognition 114

Emil Kelevedjiev, Todor Branzov, Petar Petrov, Marin Shalamanov. Bulgarian platform for competitions in informatics 123

SECTION A: MATHEMATICAL STRUCTURES
SECTION B: MATHEMATICAL MODELING AND INFORMATICS

Chavdar Dangalchev. Using entropy of categorical data for clustering 133

Oleg Iliev. "Hot releases" in learning management systems and learning content management systems 137

Oleg Iliev, Radoslav Yoshinov, Georgi Tsochev. Verification of user identity and data security in the context of LMS and LCMS 144

Orlin Kouzov. Multi-component informatization model for the successful transformation of the educational process 152

Detelin Luchev, Lilia Pavlova, Maxim Goynov. Towards personalized content observation in an ancient history virtual museum 159

Maria Pashinska, Iliya Bouykliev. About OpenMP and some combinatorial algorithms 167

Stela Zhelezova. On the extension of a partial solution of d spreads to a parallelism 173

SECTION C: EDUCATION IN MATHEMATICS AND INFORMATICS

Alexander Ganchev. Teaching category theory to undergraduates 181

Desislava Georgieva. Diagnostic assessment tools for determining the level of learners' fraction skills 190

Vladimir Zablotskii, Svetlana Vasileva. Geodetic tasks in programming training courses 198

Gergana Karabelyova, Philip Petrov. IT lab and museum in the classroom ... 207

Stefka R. Karakoleva. LaTeX typesetting training in financial mathematics at "Angel Kanchev" University of Ruse 213

Petar Kenderov, Toni Chehlarova. The use of auxiliary files in the online competition "VIVA Mathematics with a Computer" 220

Borislav Lazarov. On students' achievements assessment in Chernorizec Hrabar Tournament and TIMSS 229

Martin Stanev. Locus of the centroids of the equilateral triangles inscribed in a parabola 234

Toni Chehlarova. Models of golden rectangles 239

AN EDUCATIONAL PROJECT

Anna Sameva, Todor Branzov. The "Education with science" program 249

PROFESSIONAL DEVELOPMENT COURSES FOR TEACHERS

Stefka Karakoleva. Creating and using of digital resources in mathematical training 263

Maroussia Slavtchova-Bojkova, Denitsa Grigorova, Emil Kamenov. Data analysis and graphics using software 265

Toni Chehlarova. Studying stereometry with dynamic constructions 269
